

# Life's Big Questions

One of Life's biggest questions must be:  
"What does the long-term future hold for us?"

It is an unfortunate fact that virtually everything in our world is deteriorating. Sooner or later that includes us as well. We all share the problem that we have no long-term future.

As we cannot solve this problem, we need help. But we need help from somewhere we can trust. We also need to be sure that our helper has the ability and willingness to do something about our problem.

If we can find good evidence of a God who is willing and able to help, we should at least consider whether there could be a solution to our problem.

We want to show you that there are very good reasons to believe that the God of the Bible has the answer to this question of our long-term future. The same God has answers to other questions as well.
